

Government Pataleshwar College, Masturi
District- Bilaspur (C.G) -495551
BEST PRACTICES- 2019-20

BEST PRACTICE- 01

- 1. Title of the practice:** “Mentor-Mentee Activities” under Mentor-Mentee Scheme.
- 2. Objectives of the Practice:** “Mentor-Mentee” scheme is for continuous academic monitoring of students for enhancement in general knowledge, communication critical thinking skill, overcoming stage fear, building self-esteem and personal development, etc. It aimed at enabling students to think out of the box. By Continuous monitoring, the mentor could also keep an eye on of academic performance of students including their attendance and performance in internal exams as well as providing a support system to guide and motivate the students, identify and solve personal problems of the students as well.
- 3. The Context:** “Mentor–Mentee Activities” under Mentor-Mentee Scheme was introduced in the year 2019, with a view to advance the educational and personal growth of the student in topics like ‘cultural and literary’, ‘environment sustainability’, ‘human values’, ‘yoga’ and ‘clean and green practice’, ‘health and hygiene issues’, ‘gender sensitization’ etc. Mentor could also acknowledge and addresses the problems faced by the students like poor academic performance, problems related to infrastructural facilities, and personal problems if any; therefore, establishing a bond between them. Mentor motivates and guides the students. This in turn develops a sense of confidence, support and security in students as they are in a better position to face the academic challenges. Effective communication with the students helps their respective mentors to understand their strengths and weaknesses. Hence, they can mentor them in the right direction. In some cases, counselling for time management, stress management etc., is also provided to the students by their Mentor. All these activities undertaken by the mentor every Saturday are recorded in a register.
- 4. The Practice:** The institute has appointed one or two faculty members as mentors in every class. The activity timetable was set for every Saturday of all academic months. Mentor would compulsorily keep the record of activities and attendance of students in the register. Every Saturday allotted topics would be elaborated by the mentor as well as mentee students before their respective class. Below mentioned chart by one mentor would clarify the practice:

9.	14.12.2019	B. A. III Year	Cleanliness	“ Clean Campus Green Campus ” activity was organized	02	56
10	28.12.2019	B. A. II Year	Envt Awareness	Different varieties of Rose planted by the students in Rose Garden.	02	73

5. Evidence of Success: This scheme has led to improvement in attendance of students and ultimately their performance in academics. Selected topics presented in the form of seminars raised the critical and analytical ability of the concerned students. They even studied topics other than the syllabus and spoke elaborately on them. They grew interested in writing articles, poems, and essays on the topics. On certain days students would go out within the campus to plant saplings and operate cleanliness drives. They actively participated in the activities and showed interest in gardening and keeping clean. They pledged to aware of their family and society with the same. A sense of responsibility and belongingness could be

observed among the students. Mentor could also confront with the multiple talents of their mentees. Yoga was adopted as a lifestyle by many students and teachers.

6. Problems Encountered and Resources Required: Mentor-Mentee Activities have proven to be a powerful means of developing positive relationships between teachers and students. Due to no financial support for the operation of the activity, The operation of the program was conducted by the teachers and students of the college through Shramdan and Economic Cooperation. College is situated in rural area due to which trained gardener is hard to find. Planting saplings required more plant availability and maintenance of planted saplings, but due to the non-availability of gardener maintenance and survival of planted saplings is very hard especially during summer vacation. In the event of financial provisions, this program can be disseminated in the future.

BEST PRACTICE- 02

1. Title of the practice: To create a clean, green, and eco-friendly campus.

2. Goal:

- ✓ To create awareness among the students for the need for an eco-counter to the growing hazards of pollution in Masturi.
- ✓ To create a sense of responsibility among students to keep the campus litter-free and green.

3. Context: Many stone crusher plants are situated just beside the government college Masturi, which are instrumental in producing noise and air pollution in the area around and also make life hazardous to the population and flora and fauna as well.

4. Practice: This best practice is a small but significant step in involving the students to make the college clean, green, and eco-friendly and in turn creating awareness in them about the need for conservation of the environment. Common practices include planting the sapling, awareness rallies, campaigns and lectures. These activities are largely carried out by volunteers of the science club, NSS, cadets of NCC and Youth Red Cross society. The Botany department of the college has developed a Botanical garden with several and useful medicinal plants. A beautiful rose garden has also been developed by the science club. An attractive fountain was constructed by the NSS Unit in the front garden of the college. The first-year students are encouraged to focus on environmental studies from a practical point of view. Lectures on environmental awareness, pollution and harmful effects of polythene were organized. Students are advised to reduce the use of plastic and other disposable items. The use of air horns in the college is strictly prohibited.

5. Evidence: The campus is now having a botanical garden as well as a well-developed and well-maintained large garden in front of the main building. There is a compost pit and rainwater harvesting system also.

6. Problems: The college campus is open on one of its sides due to an incomplete boundary wall and hence it is open for thoroughfare. This not only cause traffic pollution and disturbance to the college but also allows stray animals to wander in search of food and causes damage to the garden.
