ICT Facilities in the College

At present, 65 computers are available in the campus. About 40 computers have been installed in the Computer science lab dedicated for Computer science students. Automation in the college library has been initiated by installing SOUL 2.0 software. 02 ICT enabled class room one in each building is developed, so that students and teachers can use them easily. Internet facility is provided in the whole campus through LAN and Wi-Fi. The college promotes students for maximum use of all these facilities as follows:

- Printers and photocopy machines are installed in the office, so that students may get print out/ photocopy of any study material on nominal rates.
- One computer operator cum trainer is arranged from Jan Bhagidari Samiti, who assist students whenever required.
- NLIST User ID, passwords are allotted to students. Students may use this facility in the Library or even on their smart phones.
- Active learners are promoted to use LCD projectors, interactive boards and digital teaching device for presentations.
- PG students are encouraged to deliver their seminar using Power Point presentation.
- Many departments have provided computer and printer cum scanner, so that teachers and students may browse learning material of their subjects, instantly, in their department itself, using Wi-Fi.
- FDP on use of ICT for teaching and learning has been organized by IQAC so that maximum teachers avail these facilities and encourage their students for better use of available infrastructure.

The classes are predominantly on lecture basis but ICT tools are also used to supplement and enhance teaching-learning experience from time to time. The teachers make use of Power Point presentations and educational videos for providing visual aid to teaching-learning process. The students are also assisted and directed by the teachers for making effective use of ICT tools for their learning. The college organized online quiz competitions which provide the students an experience of online activities. Under the National University Students' Skill Development (NUSSD) program run in the college, enrolled students are given proper training in ICT tools to help them seek employment opportunities. Some students have even got campus placement offers as a result of such efforts. Latest news and information about syllabus, Time tables of exams, internal assessments,

activities and competitions in the college or university are updated and displayed on notice boards as well as on college website (www.gpcmasturi.co.in). In this way, students from rural background also learn to use ICT tools for learning as well as for keeping abreast of new developments. Our college teachers have made many videos on various topics during COVID-19 lock down which are uploaded on egschool.in and college website. Link of those lectures are given below:
