1. STATEMENT OF PURPOSE

The employability of India's university graduates continues to remain weak even while there is an acute shortage of skilled manpower in an increasing number of high demand sectors. The youth are thus disillusioned about job opportunities post their studies. Though they have educational degrees, they lack the skills and the experience to get employed.

Skilling the youth to enhance their employability and enabling them to be effective contributors to the nation's growth and development assumes paramount importance in the current context.

The Tata Institute of Social Sciences has been working to reach the youth through an innovative programme called '**National University Students' Skill Development (NUSSD)**' for the same purpose. The aim is to enable the youth enrolled in the various degree programs in Colleges and Universities in India to acquire skills that would give them a certificate/diploma in a specific high demand domain area in addition to their degree. Students will be introduced to holistic education which encompasses components of employment oriented training, exposure to community services, life skills training and civic education to fulfill the changing requirement of higher education and thereby bringing about vocationalisation of higher education. Eventually, this programme is poised to cover all the youth in the university system wanting to enhance their employment potential by gaining skills along with a graduate degree in their chosen discipline.
